Polar Mathematic Education

About Us

Polar Mathematic Education came into existence since 2005 in the Abu Dhabi Emirates. We have trained over 1900 students in different domains. Driven by a passion to provide the kids of today, what was not accessible a few years ago. Started in 2005, Polar Mathematic Education caters to the growing demand for quality technical training /education across the UAE.

Mission

Polar Mathematic Education institute is committed to the intellectual, personal, and professional growth of its students, faculty, and staff. The goal of the college is to inspire a lifelong passion for learning and to empower a diverse population of students to succeed as citizens of a challenging world. Toward this goal, and in order to enhance the quality of life in Polar and the larger community, the institute is dedicated to excellence in teaching and Service and cultural enrichment.

Vision

Polar Mathematic Education institute will recognize leader in public higher education, known:

- For the intellectual and creative accomplishments of its faculty, staff, and students.
- As a caring academic environment where lives are transformed through education and each individual is valued.
- As an institution that serves to improve our region, our nation, and our world, one student at a time

CORE VALUES :

We, the Polar Mathematic Education institute, are committed to:

- Access to quality public higher education.
- Quality teaching and learning.
- Opportunities for individuals to realize their full potential.
- The rigors, joys, and fulfillment of intellectual discovery.
- Respect for diversity and individual differences.

Polar Mathematic Education

Courses We Offer

Robotics

“Build Robots. Build Friendships. Build Confidence!”

Looking for new activities to inspire your child outside of school ?

Three words: **Robotics for Kids!**

Robotics for Kids uses fun, hands-on projects to get your child's creative juices flowing. Your child will learn how to build and program robots with EV3 bricks and software — all while making friends, developing new skills and having a great time with STEM. For many kids, robotics class is a highlight of their week.

We have several kids' robotics programs available to fully engage and challenge your aspiring engineer, computer programmer or scientist. First timer? No problem! Your child is welcome. He or she can jump into Robotics without any prior experience.

Abacus

“The Brain Booster”

Abacus is an instrument that was invented some 2500 years ago primarily in China, which later on spread through countries like Korea, Japan, Taiwan, Malaysia etc. It was used in the ancient times for calculating numbers through basic arithmetic system. It has now been proven as a complete brain development tool over last two decades.

Abacus became popular over the world after being transformed from a calculating instrument into a system having immense power to benefit children of small ages by expanding the brain usage, in addition to making math learning easy and effective

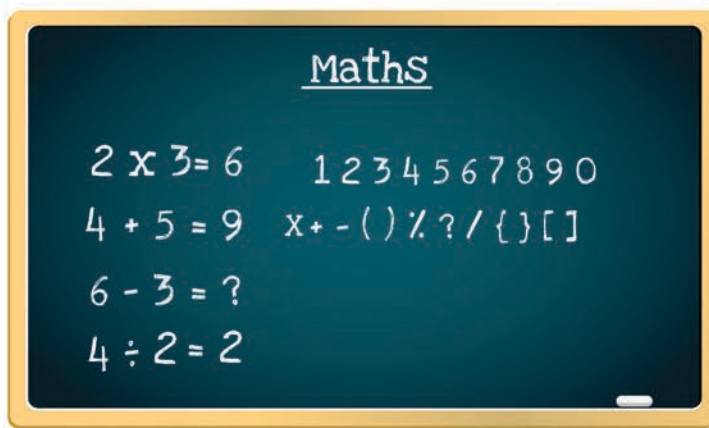

Polar Mathematic Education

Courses We Offer

Vedic Mathematics

Vedic Mathematics is the name given to the ancient system of Indian Mathematics

In the Vedic system 'difficult' problems or huge sums can often be solved immediately by the Vedic method. These striking and beautiful methods are just a part of a complete system of mathematics which is far more systematic than the modern 'system'. Vedic Mathematics manifests the coherent and unified structure of mathematics and the methods are complementary, direct and easy.

The simplicity of Vedic Mathematics means that calculations can be carried out mentally (though the methods can also be written down). There are many advantages in using a flexible, mental system. Pupils can invent their own methods, they are not limited to the one 'correct' method. This leads to more creative, interested and intelligent pupils.

Handwriting

Handwriting is an essential skill for children. Even in the age of technology, handwriting remains the primary tool of communication and knowledge assessment for students in the classroom. The demands for handwriting are great, whether in the classroom or beyond.

Many standardised assessments are based on written work, particularly in time-limited written examinations. Without fast and legible handwriting, students will miss out on learning opportunities, under-achieve and may fall behind. Good handwriting remains as a major form of assessment for many formal qualification

Polar Mathematic Education

Courses We Offer

Calligraphy

Calligraphy is a form of ornamental handwriting found in various cultures throughout the world and whose origins date back to ancient times. A contemporary definition of calligraphic practice would be: "the art of giving form to signs in an expressive, harmonious and skillful manner."

Calligraphy is the art of forming beautiful symbols by hand and arranging them well.

It's a set of skills and techniques for positioning and inscribing words so they show integrity, harmony, some sort of ancestry, rhythm and creative fire.

Kids Young World

Kids Young World is staffed by the best experienced, fully qualified and dedicated professionals, who have a range of qualifications relevant to child care. Each team member is also qualified in Pediatric First Aid, Food Hygiene and has undergone a recent, enhanced Health check. The best Institute in Abu Dhabi is run by the Managing Director and Principal, both of whom are fully trained with extensive experience of looking after children in a Pre School environment .

We Aim to :

- Prepare children to become social, independent individuals
- Help them explore and discover new concepts and ideas
- Lead them to recognize their values, ethics, and morals
- Inspire them to embrace challenge and learn through experience and self-discovery

Polar Mathematic Education

Courses We Offer
